**Ronald K. Watanabe OD FAAO : Clinical Case in Contact Lenses, 1e** before purchasing it in order to gage whether or not it would be worth my time, and all praised Clinical Case in Contact Lenses, 1e:

Test your skills in treating contact lens problems. This clinical handbook presents common contact lens problems and step-by-step treatment solutions. Forty case studies cover a range of problems from basic fitting dilemmas to adverse

effects of contact lens wear. The unique layout of the case studies challenges you to think through the clinical decision making process and develop your own list of differential diagnoses before turning to the next page to read the author's diagnosis and discussion. Combined clinical pearls and color photographs, along with the author's vast experience make this book an essential purchase. Test your clinical skills. Enhance your contact lens acumen. Challenge yourself to develop your own differential diagnoses.

**From the Publisher** This clinical handbook presents common contact lens problems and step-by-step treatment solutions. Fifty case studies cover a range of problems from basic fitting dilemmas to adverse effects of contact lens wear. **About the Author** Ronald K. Watanabe, OD, FAAO, is Associate Professor of Optometry and Chief, Cornea and Contact Lens Service, The New England College of Optometry, Boston, Massachusetts, USA
