Lindy McAllister, Michelle Lincoln : Clinical Education in Speech-Language Pathology before purchasing it in order to gage whether or not it would be worth my time, and all praised Clinical Education in Speech-Language Pathology:

This text promotes the view that the clinical education process offers both clinical educators and students opportunities

for personal and professional development. It guides the reader through the clinical education process, from pre-placement preparation to assessment of learning that supports and encourages personal and professional development. Included are resources for supporting the clinical education process, such as checklists, case studies and proformas, and vignettes illustrate the richness of students' and clinical educators' learning experiences.
