Hartwick Great resource for CSR exam. You will not be disappointed.

This comprehensive and practical guide covers the spectrum of kidney disease in adults and children, from early-stage CKD to dialysis, transplantation and nutrition support therapies. Thoroughly updated, the research- and evidence-based edition includes expanded information on nocturnal home dialysis, herbal supplements, mineral and bone

disorders and acute kidney injury. It is a great resource for registered dietitian nutritionists preparing to sit for the Board Certified Specialist in Renal Nutrition (CSR) credentialing examination.
