M. Ann Wallace MS MT(ASCP) CLS, Deanna D. Klosinski PhD MT(ASCP) DLM : Clinical Laboratory Science Education and Management before purchasing it in order to gage whether or not it would be worth my time, and all praised Clinical Laboratory Science Education and Management:

Here's the first clinical laboratory science text to cover the full range of education and management skills mandated for certification by the NCA, NAACLS, and ASCP. A remarkably varied, interactive approach helps readers master these

skills to the fullest!
