review helpful. Four StarsBy Ryan Ramoutargood book but a little outdated now0 of 0 people found the following review helpful. By CustomerA very good book.

Clinical Ophthalmology: A Self-Assessment Companion is the perfect way for trainees to test their knowledge in key areas of ophthalmology. Following the same structure as Jack Kanski's best-selling Clinical Ophthalmology: A Systematic Approach, the many carefully selected questions and lavish illustrations take the reader step-by-step through the main topics, and together comprise an excellent tool for consolidation and review. The new Self-Assessment Companion is an invaluable passport to examination success in ophthalmology and optometry. The ideal review companion to Clinical Ophthalmology: A Systematic Approach. Many carefully selected questions and answers. Contains many new illustrations throughout.
