The picture of the book on the order page was the one I wanted. They sent an older edition of the book , so the wrong book. I email them so I could send them back and they said they would refund me but I had to pay for the shopping. And they would not do an exchange because the item # was correct and that was what they sent. I looked back at my order they apparently used the newest editions picture but attached the older editions item #. So I sent a second email with the picture of the book on my order saying this was the one you were advertising. It's been 3 days and I'm still waiting on a response. So this is what was on the books order: Seller note:"Shows some signs of wear, and may have some markings on the inside. 100% Money Back Guarantee. Shipped to over one million happy customers. Your purchase benefits world literacy!From betterworldbooks_" So now I'm now waiting to see if they live up to there guarantee.0 of 0 people found the following review helpful. One StarBy Lindsay KingOrdered the book in the image, got an older version. I see this has happened before. SCAM!0 of 1 people found the following review helpful. Incorrect BookBy IT'S FOR A REASONIt was the wrong book that was mailed. The company offered to replace it, but time or my work schedule didn't allow me to go through the hassle of mailing it back; so I currently own a Wildlife Forests and Forestry book.
