The Coding Institute : Coders' Specialty Guide 2017: Pulmonology before purchasing it in order to gage whether or not it would be worth my time, and all praised Coders' Specialty Guide 2017: Pulmonology:

SuperCoder Illustrated Gets Revamped for 2017: Coders' Specialty Guide 2017: Pulmonology Is your pulmonology practice ready to take on CPTreg; 2017 code changes? Are you looking for specialty-specific procedure coding guidance to stop claim denials from eating into your reimbursements? An All-in-One Reference Guide for Pulmonology Coding Build a solid understanding of critical CPTreg; 2017 code changes and insulate your claims against errors with the new and expanded Coders' Specialty Guide 2017: Pulmonology. This specialty-specific guide features updated pulmonology procedure codes, official code descriptors along with their lay term explanations, CCI edits, modifiers for codes, Medicare reimbursement information, along with several bonus features that were requested by our customers. A Coding Guide that is Both Economical and Saves Time! Juggling multiple coding books for

reference or looking up the internet for the right code is not only time consuming but counter-productive as well. The spiral bound guide will allow you to zero-in on the right pulmonology code in an instant, without you having to spend a bomb. The Specialty Guide Features: • Common pulmonology CPTreg; codes, including 2017 new and updated codes • Category I-III codes along with official descriptors to facilitate simple code selection • Complex pulmonology procedures explained in simple, lay terms • Pulmonology coding and billing tips from industry experts to aid in reporting specific CPTreg; codes • Updated Medicare reimbursement information for hospitals and physicians • Facility and non-facility RVUs for greater accuracy in payments • Crosswalks for modifiers.
