Alice Anne Andress CCS-P CCP : Coding Notes: Medical Insurance Pocket Guide (Davis's Notes) before purchasing it in order to gage whether or not it would be worth my time, and all praised Coding Notes: Medical Insurance Pocket Guide (Davis's Notes):

14 of 14 people found the following review helpful. Great for infoBy Mandy M. LetortI have just finished an online Medical Coding course and found this book to use while studying to take the CPC certification exam! I love the tabs for different information, so I can review something quickly and don't have to flip all the way back in my textbook!20

of 20 people found the following review helpful. SatisfiedBy old music loverThis is an excellent tool for Medical Billing and Coding to go along with the International Classification of Diseases and Current Procedural Terminology. This tool can be used for school or for work. I recommend purchasing this product if you plan or are currently working in billing and coding. You won't regret it.0 of 0 people found the following review helpful. Two StarsBy kphsilverOut of date book--health care facilities now use ICD=10 codes and not ICD-9 codes.

A DAVISrsquo;s NOTES BOOK!Increase your confidence with the expert guidance yoursquo;ll find in the 2nd Edition of this easy-to-use guide. Text, tables, and grids make finding the information you need to understand medical billing procedures and billing and coding a snap.Davisrsquo;s Notes signature style, write-on/wipe off pages for note taking, spiral binding, and thumb tabs, make this a must-have reference that yoursquo;ll rely on every day.
