Glen Gillen EdD OTR FAOTA : Cognitive and Perceptual Rehabilitation: Optimizing Function, 1e before purchasing it in order to gage whether or not it would be worth my time, and all praised Cognitive and Perceptual Rehabilitation: Optimizing Function, 1e:

1 of 1 people found the following review helpful. Good resource for OT schoolBy StacyMay DennyGood resource for OT school. I only gave so few stars because I got the Kindle version, which is given in a strange format that makes it very difficult to read the tables inside.4 of 4 people found the following review helpful. A Must Have in Neuro RehabilitationBy Randy MartiAny person working in the Neuro-Rehabilitation field especially Occupational Therapists should have this book. It is more than a reference or a guide, this book provides insight and clever strategies to understand what might be going on cognitively and perceptually with a client who has an upper motor

lesion. The book ties in neurology and function.0 of 0 people found the following review helpful. ReviewBy Agnieszka MalinskaExcellent source of information regarding assessments and treatments as well as good source of general knowledge in a consized format.

Reflecting current practice with a renewed focus on function-based assessments and evidence-based interventions, *Cognitive and Perceptual Rehabilitation: Optimizing Function* includes all of the tools you need to make a positive impact on your patients' lives. This clinical resource summarizes, highlights, and constructively critiques the state of cognitive and perceptual rehabilitation. This text helps you enhance your patients' quality of life by promoting improved performance of necessary and meaningful activities, and decreasing participation restrictions.

"Cognitive and Perceptual Rehabilitation is a very valuable resource for clinicians, with a comprehensive list of references to ensure best practice. It would be a very beneficial and practical book to have within any occupational therapy departmentIt would also be an excellent reference for students." *The Irish Journal of Occupational Therapy*, Summer 2009, Volume 37 (1)
