From Brand: Routledge : Collaboration Social Wrk Pract before purchasing it in order to gage whether or not it would be worth my time, and all praised Collaboration Social Wrk Pract:

First published in 2003. Routledge is an imprint of Taylor Francis, an informa company.

The literature on collaborative practice is growing apace, but texts for students and beginning practitioners remain few, making this publication even more welcome. Written for new entrants to social work in the UK, it interweaves two themes: involving "Service Users" and carers, and collaboration between professions. -- Journal of Interprofessional
There are some exciting and challenging ideas in this book... I can strongly recommend this book to social work lecturers, practice teachers and social work students. -- Journal of Practice Teaching This book plots the emergence of the principle of collaboration as a fundamental value in health and social care, and explores how it can be achieved through a series of case studies, including service user and carer perspectives. This is a timely read. -- Community Care This reader is aimed at new or experienced social workers who want to develop collaborative practice with service users or partner agencies in health, social care and other sectors. Definitions of what constitutes collaborative work are presented, as is relevant policy on partnerships, current research on what works, and examples of good practice. -- Care and Health Magazine

The literature on collaborative practice is growing apace, but texts for students and beginning practitioners remain few, making this publication even more welcome. Written for new entrants to social work in the UK, it interweaves two themes: involving "Service Users" and carers, and collaboration between professions. (Journal of Interprofessional) There are some exciting and challenging ideas in this book... I can strongly recommend this book to social work lecturers, practice teachers and social work students. About the Author Jenny Weinstein had 18 years' experience in local authority social work before moving to CCETSW where she led on the DipSW and interprofessional education. She is currently Assistant Director at Jewish Care and has produced a number of publications on interprofessional collaboration. Colin Whittington is a learning and development consultant, working in social care and health. After wide experience in social work education, where his interprofessional and inter-agency work began, he was Head of CCETSW's London and South-East Region and Principal, Research and Development at TOPSS England. Tony Leiba is Senior Research Fellow in North East London Mental Health Trust and the Faculty of Health at South Bank University. He teaches and researches mental health care, interprofessional education and training, research methods, evidence based practice and conflict management.
