Not the book I needed.By CustomerAll books are good but I bought it by mistake and when my classes started my instructor said this is not the book I was supposed to buy. So I tried to cancel it on my device (it is an ebook) but Unfortunately it doesn't cancel the purchase. I was wondering if there is any way to help me return it? Thanks0 of 0 people found the following review helpful. OdoriferousBy quirkyThe book smells so bad that I became sick from it. I began using the book once school started so it was past the 15 day return policy. Thankfully another class mate had another book so I've been using theirs.The book is very redundant and you are left more confused after the readings. This is sad due to the fact that the topic is very interesting and covers important topics.I will not be renting a book from this company again due to the strong smell. The book was in good

shape but the mold makes it I acceptable.0 of 0 people found the following review helpful. Five StarsBy SGGreat book for this course.
