Ann Peden : Comparative Health Information Management before purchasing it in order to gage whether or not it would be worth my time, and all praised Comparative Health Information Management:

1 of 1 people found the following review helpful. Great Resource for HIT ProfessionalsBy Customer is a great place to buy college textbooks at a reasonable price. I purchased the book for a HIT (Health Information Technology) course. 's price was less than the price for the same book sold at my school's bookstore. I ordered my book about a couple of weeks before school started. The book arrived as described in a timely manner. And the textbook itself is very informative.1 of 1 people found the following review helpful. It served its purpose for school studiesBy CollegiateUtilized this book for school, it served its purpose. I will keep for reference as some information is good to have for future use.1 of 1 people found the following review helpful. Five StarsBy VilmaA must for Health Informatic Specialists.

Break into the exciting field of HIM with COMPARATIVE HEALTH INFORMATION MANAGEMENT, 4e!

Whether you see yourself working in a hospital, clinic, or office, this text can help you find the ideal career. Chapters explore a variety of settings, including hospitals, ambulatory clinics and medical offices, veterinary practices, home health, long-term care, and correctional facilities, as well as emerging practice areas in professional consulting and cancer registry. Focused on the challenges of managing and protecting the flow of information across sites, this updated text introduces you to the health care system, then walks you through the many HIM roles available to you, infusing discussions with key terms, self-test questions, web links, and illustrations that add meaning to concepts. Features include realistic case studies to help you solve problems, while new "Professional Spotlight" vignettes give you an insider view of actual professionals in their HIM careers.

"I don't know of any other textbook that covers HIM in various health care settings to the extent this one does. It is comprehensive, consistent in organization, and well written. Very thorough discussion of this care setting is given. I appreciate the details given in the section on documentation. The Reimbursement section is very well detailed. I can't say enough good about the level of useful detail given." "It is a concise and focused text with valuable assignments and critical thinking questions." About the Author Ann Peden is Professor of Health Informatics and Information Management at the University Mississippi Medical Center's School of Health-Related Professions in Jackson, Mississippi. Formerly a member of the Board of the Commission on Accreditation of Health Informatics and Information Management Education (CAHIIM), Dr. Peden has also served as President of both the Louisiana Medical Record Association and the Mississippi Health Information Management Association. She earned her PhD from the University of Mississippi and an MBA from Louisiana Tech University in Ruston, Louisiana, where she also taught in the health information management programs.
