From Data Trace Publishing Company : Compendium of Podiatric Medicine and Surgery 2012 before purchasing it in order to gage whether or not it would be worth my time, and all praised Compendium of Podiatric Medicine and Surgery 2012:

This unique subscription-based book is designed to help today's podiatrist manage an ever-increasing flow of information. The book's editorial team has studied hundreds of publications - mainstream podiatric journals as well as those from related fields - to hand-pick the most significant articles in each subject area from the last year. Each article is expertly condensed in an easy-to-read, standardised format. Accompanying each section is a commentary by one of

the journal's section editors, which shows how the information in the article can be applied in practice. Also included are illustrations and key references for further reading.

About the Author Vincent J. Hetherington, D.P.M. Vice President and Dean of Academic Affairs; Professor, Department of Surgery, Kent State University College of Podiatric Medicine, Independence, OH.
