Springhouse : Complete Guide to Documentation (LWW, Complete Guide to Documentation) before purchasing it in order to gage whether or not it would be worth my time, and all praised Complete Guide to Documentation (LWW, Complete Guide to Documentation):

0 of 0 people found the following review helpful. Everything is good about the book By Priscilla Everything is good about the book. I'm not sure if it includes all the new regulations with Obama Care. But, it is a very useful book showing all the different ways nurses are required to document in different situations, different jobs, and different types of nursing care. A great book indeed! Service was fast too! Book in great condition a plus! !0 of 0 people found the following review helpful. and I am very pleased. By KIMBERLY My item came at the earlier end of the time frame, and it matched it's discription well. It was what I expected, and I am very pleased. 0 of 0 people found the following review helpful. Highly recommended...and thanks to the authors for sharing their knowledge By NYnurse12I

have been an RN for 8 years; this book will give you fundamentals needed for documentation. If you want to learn and be an efficient nurse in documentation. This is the book for you. I bought one and I am more than satisfied. Thank you to the authors of this book for sharing your knowledge to us especially at this needed time.

Thoroughly updated for its Second Edition, this comprehensive reference provides clear, practical guidelines on documenting patient care in all nursing practice settings, the leading clinical specialties, and current documentation systems. This edition features greatly expanded coverage of computerized charting and electronic medical records (EMRs), complete guidelines for documenting JCAHO safety goals, and new information on charting pain management. Hundreds of filled-in sample forms show specific content and wording. Icons highlight tips and timesavers, critical case law and legal safeguards, and advice for special situations. Appendices include NANDA taxonomy, JCAHO documentation standards, and documenting outcomes and interventions for key nursing diagnoses.
