David R. Dantzer, Neil R. Macintyre, Eric D. Bakow : Comprehensive Respiratory Care, 1e before purchasing it in order to gauge whether or not it would be worth my time, and all praised Comprehensive Respiratory Care, 1e:

Here is the first book to combine the essentials of respiratory care with practical discussions of critical care! 74 authorities - from educators and RRTs to pulmonary and critical care physicians - offer state-of-the-art insights into all aspects of respiratory care. This all-in-one resource provides in-depth coverage of specific diseases and conditions, and background information on cardiopulmonary science - enabling readers to diagnose and react to clinical signs and symptoms quickly and easily. Plus, it features up-to-the-minute discussions of clinical applications and the newest respiratory therapy technologies - helping readers to minimize patient discomfort using today's most effective respiratory care techniques. This unique reference offers clinical guidelines for dealing with acute renal failure, trauma, respiratory failure and other critical care problems in the full range of patient care situations - including paediatric critical care, COPD, ARDS, CPR, surgical, neurological, and CCU patient care and more! An innovative, easy-to-follow layout combined with the book's clear, succinct style allows for quick reference during clinical situations. Over 465 illustrations - including tables, figures, diagrams and photographs - highlight essential information.
