Written by a computed tomography technologist, Computed Tomography for Technologists: A Comprehensive Text is the only comprehensive CT text geared to technologists. It is ideally suited for CT courses in radiologic technology programs and for stand-alone CT programs and offers excellent preparation for the CT certification exam administered by the American Registry of Radiologic Technologists. Student-friendly features of the book include highlighted key terms, Key Concepts boxes, Clinical Application boxes, chapter review questions, and suggested readings. Computed Tomography for Technologists: Exam Review is intended to be used as a companion to Computed Tomography for Technologists: A Comprehensive Text. This resource offers excellent preparation for the CT certification exam administered by the American Registry of Radiologic Technologists as well as the CT portion of the general radiography exam from the ARRT. The book includes a bulleted- format review of content, Registry-style questions with answers and rationales, and a mock exam following the ARRT format. This package contains (9780781777513) Computed Tomography for Technologists: A Comprehensive Text and (9780781777964) Computed Tomography for
