From Harris Roma Wathen Nadine Wyatt Sally : Configuring Health Consumers: Health Work and the Imperative of Personal Responsibility (Health, Technology and Society)

before purchasing it in order to gauge whether or not it would be worth my time, and all praised *Configuring Health Consumers: Health Work and the Imperative of Personal Responsibility (Health, Technology and Society)*:

This book explores assumptions underpinning contemporary health policy discourses that emphasize personal responsibility for health, consider how they attach to changing information technologies, and discuss their influence on emerging forms of health 'work'.

'The vignettes of research here are important and timely and will offer some useful entry points for students and scholars seeking to get a flavour of some key debates in current medical sociology.' - *Sociology of Health Illness*
