Inc. BarCharts : Medical Terminology Flash Cards (Academic) before purchasing it in order to gage whether or not it would be worth my time, and all praised Medical Terminology Flash Cards (Academic):

0 of 0 people found the following review helpful. Pretty GoodBy Edward L SweetThe box says they are sorted by category, but they are sorted alphabetically. This makes it hard to focus my studying. What I do is pull the words I need as I go through each book chapter. There have been a few (not many) words that I have not been able to find.Also, I wish the cards were glossy so they would slide better. They are very rough paper that stick to each other which makes it difficult to go one to the next. Lots of finger-licking to get the top card off.2 of 2 people found the following review helpful. Keep calm and keep looking for something else...By Tom RogersCards were very cheap quality, super thin and not organized well. Better off making your own cards for the price.0 of 0 people found the following review helpful. they are good but no definitionBy Marcos A Molinathis are good but not if you need to know what the word means because there is definition attached to the flash card

MEDICAL TERMINOLOGY FLASH CARDS Box of 1,000 flash cards includes color-coded tabs on the top of the cards to easily remove and replace cards in the proper section. Cards are categorized alphabetically: A-C D-H I-N O-P Q-S T-Z
