**American Medical Association : Medicare Fee Calculator 2004 Local Version: Single User** before purchasing it in order to gage whether or not it would be worth my time, and all praised Medicare Fee Calculator 2004 Local Version: Single User:

Ensure your RBRVS calculations are right the first time, every time. The Medicare Fee Calculator software will show you the 2004 Medicare Physician Fee Schedule payment amounts and RBRVS units for 2004 CPT codes for both facility and non-facility charge, the Clinical Laboratory fee amounts, and the Durable Medical Equipment fee amounts. Simply choose a Medicare locality from the local version during set-up, or select any locality across the country from the national version, and fees are automatically adjusted and displayed. Set your own conversion factors to produce fees based on the adjusted and unadjusted nonfacility RVUs for a code. All fee schedule information can be exported to delimited text files, ready for import to database and spreadsheet programs.
