Mayer B. Davidson M.D. : Meeting the American Diabetes Association Standards of Care: An Algorithmic Approach to Clinical Care of the Diabetes Patient before purchasing it in order to gage whether or not it would be worth my time, and all praised Meeting the American Diabetes Association Standards of Care: An Algorithmic

Approach to Clinical Care of the Diabetes Patient:

Improving glycemic, lipid, and blood pressure outcomes is the essence of diabetes care. Maintaining consistently positive results is an ongoing challenge for every healthcare professional. After years of clinical practice, Mayer Davidson, MD, has developed a series of algorithmic techniques that can increase positive results. Based on ADA's Standards of Care, this book offers detailed treatment algorithms that have been shown to be clinically effective in improving outcomes in people with diabetes.

About the Author About the Author Mayer Davidson, MD is a well-known and respected researcher and an expert in clinical endocrinology. He is a Professor of Medicine at the UCLA School of Medicine and a Principal Investigator at the Clinical Center for Research Excellence at the Charles Drew University of Medicine and Science (Los Angeles). He is very active in the ADA community and was Editor-in-Chief of Diabetes Care from 2002 to 2006 and President of the American Diabetes Association from 1997 to 1998.
