transcription course. This is an excellent resource. It is easy to use, very well

Microsoft Word for Healthcare Documentation: A Guide for Transcriptionists, Editors, and Health Information Professionals, Fourth Edition has been updated to include Word 2003 and 2007 and the fundamental features of Windows XP and Windows Vista, along with more time-saving shortcuts to help transcriptionists, editors, and health information specialists maximize their use of Microsoft Word and increase productivity and profit. This is among the only books written specifically for medical transcriptionists and other health information professionals by a medical transcriptionist. Geared to both students and professionals, the text includes a full suite of ancillaries including a quiz bank, document formatting exercises, sample templates, videos, and macros. The popular workbook that was formerly sold separately is now integrated into the text.

Seminole Community College , FL, Susan D. Dooley, CMT, AHDI-F -- "Extremely appropriate level. Personal, accessible, no jargon. You don't even need a teacher to explain this text. , Y.B.A. -- "I love the use of first person, too. Excellent writing" Collin County Community College, TX, Connie Walls, BA, MA, CMT -- "These chapters are concise and well written. The screen shots help for visual understanding of the concepts being presented."
