Philip Buttaravoli MD FACEP, Thomas Stair MD FACEP : Minor Emergencies: Splinters to Fractures before purchasing it in order to gage whether or not it would be worth my time, and all praised Minor Emergencies: Splinters to Fractures:

1 of 1 people found the following review helpful. Great resourceBy AndEMVery concise and really covers a lot of random topics you wouldn't think to learn about. Excellent resource for any emergency medicine provider.1 of 1 people found the following review helpful. Five StarsBy Abelardo RuzExcelent book... you dont need to buy the newer edition.. they are almost the same.0 of 0 people found the following review helpful. portable reference guideBy John Anthony MosbyI use this clinical office practice guide frequently, and just having it available provides me a confidence in my practice. Of course, pricing, delivery and product integrity were as good as other products I've purchased through .com. I am amazed by the variety of accessibly priced quailty products available at that site.

For the emergencies that are too minor to call an ambulance, too urgent to wait for an appointment, this highly practical text covers the emergency treatments and procedures you need to know. **MINOR EMERGENCIES: SPLINTERS TO FRACTURES** covers the handling of dozens of minor emergencies from bee stings to puncture wounds to fractures of the collarbone. This practical, step-by-step guide is an essential reference for any office, clinic, urgent care center, first aid station, or emergency department.* Provides step-by-step instructions for treating the presenting emergency, easily understood by all medical personnel. * Provides lists of cautionary items to avoid, which could inadvertently worsen the situation and potentially harm the patient. * Includes consistent use of format, icons, and boxes throughout for fast access to material. * Contains well illustrated, simple line drawings which clearly depict procedures at a glance.

About the Author Philip Buttaravoli, M.D., FACEP is Medical Director of the Emergency Department at Palm Beach Gardens Medical Center in Palm Beach, Florida. Thomas Stair, M.D., FACEP is Professor and Research Director of Emergency Medicine at the University of Maryland Medical School in Baltimore, Maryland. The authors are very computer savvy and have established their own website where they have posted various emergency procedures.
