A consistent monograph format is followed, providing important ocular considerations relating to side effects, precautions, contraindications, and drug interactions. Herbal remedies and other drugs that may interact with ocular drugs are also covered. Drug entries are organized from A to Z for the quick identification and location of information about the drugs a patient may be taking or prescribed. A consistent format is followed to make it easy to locate information for each drug. A review board consisting of optometrists, ophthalmologists and pharmacists ensures accuracy and relevance for anyone interested in ocular conditions.
