PedroI bought this book just to check how are the questions formulated. It is an good overview in general. Of course, you will need additional books to review physics and the principal concepts. I do recommend this book to start your review and focus in your weakness. This is a good introduction. Please, you may

not study this questions waiting to see the same on your test. It doesn't matter if you take your ARRT-MR or ARMRIT test, you will always need additional literature. Good luck!!2 of 2 people found the following review helpful. waste of moneyBy hassanI bought this one Lippincotts; get the Lippincotts don't waste your time with this one. there are no explanations to the questions, just a.b.a.a.d....
