The questions are just great and helpful since they are of board type. The explanations are excellent because they tell you why other choices are wrong. This book helped me lot on the boards and I also recommend Yochum's book Skeletal radiology book.

Both these books are wonderful.

This is the most specific and thorough study guide for the National Board of Chiropractic Part III Exam. The following areas are covered in this test preparation study guide: Case History, Physical Examination, Neuromusculoskeletal Examination, Roentgenologic Examination, Clinical Laboratory Special Studies Examination, Diagnosis or Clinical Impression, Chiropractic Techniques, Supportive Techniques and Case Management. This book is a must for every chiropractic student or doctor of chiropractic taking the Part III Exam.

10 out of 10 Stars! This book includes detailed explanations of the answers, as well as distractors for each question. -- Scott Hopkins, D.C., Book er from Dynamic Chiropractic Publication I want to thank Dr. Patrick Leonardi for the assistance that National Board of Chiropractic Part III Study Guide and National Board of Chiropractic Part IV Study Guide provided in preparation of taking the NBCE exams. I scored a 597 on part III and 640 on part IV of the NBCE exams. I spent many hours using these books as the resource that brought all the information together in a very concise manner. After being out of school for many years and needing to pass the exams that were not in existence when I graduated these books were just what I needed. The explanations and concepts were very helpful as well as the roster of questions. I was confident about passing the exams but these books helped me achieve another level. --Rich Monoson DCI want to thank Dr. Patrick Leonardi for the assistance that National Board of Chiropractic Part III Study Guide and National Board of Chiropractic Part IV Study Guide provided in preparation of taking the NBCE exams.
