Take Your Students Beyond the Printed Text. Engage Them in Learning about Epidemiology with Navigate. In this

complete package, you'll get both the printed textbook, *Epidemiology 101*, plus access to the comprehensive online course, *Navigate Epidemiology 101*. Developed under the guidance of author Robert H. Friis, *Navigate Epidemiology 101* supports student learning through a unique combination of online content review, interactive exercises, student-instructor collaboration, and assessments. Built on the robust Jones Bartlett Learning *Navigate* platform, this online course includes many time-saving teaching tools such as a grade book, assignment management, automatic grading, and advanced reporting. This off the shelf course is pre-loaded with proven textbook content but is also highly customizable, giving you the flexibility you need to either plug and play, or make it your own. Your students will come away with a clear understanding of the basics of infectious disease epidemiology, environmental epidemiology, molecular epidemiology, and psychosocial/behavioral epidemiology. Key Features: Follows the basic *Epidemiology 101* curriculum framework as recommended by the 2006 Consensus Conference on Undergraduate Public Health Education. Offers current, tangible examples from the field such as recent disease outbreaks, bioterrorism, and uses of epidemiology for policy development. Requires no prior familiarity with health-related fields or statistics.
