**Dana F. Oakes : Neonatal/Pediatric Respiratory Care: A Critical Care Pocket Guide- 5th Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Neonatal/Pediatric Respiratory Care: A Critical Care Pocket Guide- 5th Edition:

4 of 9 people found the following review helpful. small size writng words difficult to readingBy Dr momthe book informative and up dated , but very small hand writing and difficult to read comfortably , so either make larger size the letters or increase the number of papers .

There is nothing more critical than caring for neonatal or pediatric patients during times of medical distress. Every

second can be the difference between life and death. Oakes' Neonatal/Pediatric Respiratory Care is THE bedside critical care guide respiratory professionals should never be without it. This reference is essential for not only the student in school, and the practitioner in the pediatric hospital, but especially for the practitioner in the outlying hospital having to care for a baby until a transport team arrives. Key content includes prenatal and postnatal assessment, neonatal transport, assessment and monitoring (respiratory, cardiovascular, neurological), critical care procedures, O<sub>2</sub>/aerosol/humidity therapies, chest PT, CPAP, mechanical ventilation, pharmacology, 47 diseases/disorders, and more. This completely revised 5th edition includes updated pharmacology, and the 2005 AHA CPR guidelines with ACLS Algorithms.

About the Author Dana Oakes, BA, RRT-NPS. Mr. Oakes is currently an Educational Consultant and was formerly Director of Respiratory Care, VA Medical Center, Washington, D.C.; Educational Coordinator/Instructor, Respiratory Care Department, Children's Hospital National Medical Center, Washington, D.C.; and Director of Clinical Education, Respiratory Care Program, Columbia Union College, Takoma Park, MD.
