Julie Pepper BS CMA (AAMA) : The Simulated Administrative Medical Office: Practicum Skills for Medical Assistants powered by SimChart for the Medical Office, 1e before purchasing it in order to gage whether or not it would be worth my time, and all praised The Simulated Administrative Medical Office: Practicum Skills for Medical Assistants powered by SimChart for the Medical Office, 1e:

1 of 1 people found the following review helpful. Useless and incomplete textbookBy rlwallisonThis is a substandard textbook. Many of the exercises lead you half way through the task, then tell you to "complete the form." This is like having MapQuest tell you to "keep driving on roads" when you are only halfway to your destination. I used it for a class, and my instructor had to go through the exercises, figure out the information that was missing and give us an

additional sheet with the information that the author didn't bother to include. Completely impossible to do the exercises without that extra information. Wish that I could give this book ZERO stars.

Get two weeks of job experience under your belt with *The Simulated Administrative Medical Office: Externship Practice for Medical Assisting!* This simulated practicum walks you through ten days on the job as an administrative medical assistant working in the front office of a medical practice. Clear, step-by-step instructions show you how to complete tasks such as patient scheduling, billing, and insurance using SimChart for the Medical Office. The guide also reinforces points of professionalism to ensure you'll be well prepared to succeed in your actual externships and future AMA career! This product does NOT include a SimChart for the Medical Office access code. To purchase the text + SimChart package, please use ISBN 9780323374712. 50 tasks each simulate an actual administrative duty of the medical assistant such as managing patient scheduling, insurance, or billing to develop your front office skills. Step-by-step instructions simplify the daily tasks and make simulations and practice more realistic. Examples of forms and supplies are included online to use in completing assigned daily tasks. Tasks are fully aligned with CAAHEP and ABHES competencies for medical assisting, including the newest CAAHEP standards.
