Jeffrey Kamen (Illustrator) by Daniel Kamen : The Well Adjusted Horse: Equine Chiropractic Methods You Can Do by Daniel Kamen, Jeffrey Kamen (Illustrator) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Well Adjusted Horse: Equine Chiropractic Methods You Can Do by Daniel Kamen, Jeffrey Kamen (Illustrator):

7 of 8 people found the following review helpful. Good book, but not recommended for non-professionalsBy Derek NI am a trained animal chiropractor. I completed one of only 3 animal chiropractic post-grad programs in the country. In addition to the 1000+ hrs to obtain my Chiropractic degree, the animal chiropractic program was 220 hrs. I got this book to see if there were any other adjusting tips I could pick up that I didn't learn in my education.I WOULD NOT ADVOCATE ANYONE UNTRAINED TRYING TO ADJUST THEMSELVES, EACH OTHER, THEIR OWN ANIMALS, OR THE ANIMALS OF OTHERS IF THEY ARE NOT TRAINED PROPERLY. THIS TRAINING CANNOT BE HAD FROM READING A BOOK.I appreciate the efforts Daniel Kamen has made to get Animal Chiropractic out to the public, but I can't stand behind the one-day or one-weekend seminars he puts on, or did put on. The philosophy, art, and science of Chiropractic cannot be learned solely from a book, or in a few hours. It takes YEARS upon YEARS and PRACTICE upon PRACTICE and constantly learning to be an effective chiropractor.I would NOT recommend this book for ANYONE besides and animal chiropractor wanting to learn more about his trade.1 of 1 people found the following review helpful. must haveBy Victoria HallI bought this book to help me with

my mule since we do not have a valid equine chiro within a 300 mile radius. This book is well written, the descriptions of treatment and pictures are well done. I'm a sonographer so the descriptions were easy for me to understand, I think they would be too for someone non medical. With this book and the massage for performance horses dvd, my mule is sound finally. Had he not been, he would be on a 5hr one way road trip to denver next weekend. I thank the guy that wrote this and my mule thanks you too. 1 of 1 people found the following review helpful. An excellent informative book By Noel Downs An excellent informative book. The early background although not necessary made the book a thoroughly enjoyable read. Some of the diagrams could have been placed better however I understand why they were not (would have broken the flow of the text). Still it was simple and straight forward, easy to read and easy to follow. Not something for the novice to try but if you already massage your horse this is the next logical step to home management of your pony's health and wellbeing.
