**Rosemary Adam, Chris Cebollero : Transport Of The Critical Care Patient + RAPID Transport Of The Critical Care Patient** before purchasing it in order to gage whether or not it would be worth my time, and all praised Transport Of The Critical Care Patient + RAPID Transport Of The Critical Care Patient:

0 of 0 people found the following review helpful. TransportBy CustomerI have been in transport for 12+ years and this book is a wonderful supplement to my existing knowledge base.0 of 0 people found the following review helpful. EXCELLENT!By Wvemt04This is an excellent book for CCT class. Good review and good explanations that are helpful for class or just increasing your knowledge base. Highly recommended! The pocket guide is just as good!!0 of 0 people found the following review helpful. Don't waste your timeBy Kristin GilletteThis book is getting 3 star not for the AP review, but for the treatment suggestions and practices that are just blatantly wrong. This book is very basic

and a majority of the so called "standard" treatments are outdated and proven to be hazardous to patients since the mid 1990s. This book needs to be updated. My recommendation is that you find another book for your studies.

This bundle includes Transport of the Critical Care Patient, First Edition + RAPID Transport of the Critical Care Patient, First Edition

About the Author Rosemary Adam is an EMS nurse with over 25 years experience in prehospital care (administrative, education, and ground and air transport). In 1996, Rosie developed the Critical Care Paramedic (CCP) course at The University of Iowa Hospitals and Clinics in Iowa City, Iowa. As an educator, Rosie has developed teaching methods used by leading individuals in clinical EMS, emergency and flight nursing practice. Rosie has been a part of several writing projects with recent experience as a co-author of the Advanced Medical Life Support Instructor manual. Rosie has taught numerous programs and is experienced in curriculum development. Chris Cebollero is the Chief of Emergency Medical Services for Christian Hospital in St. Louis, Missouri. Chris is a graduate of the University of Iowa's Critical Care Paramedic program and served as a military medic. Chris not only trains hundreds of students each year, he has also led a successful and well-recognized team of field training officers in an organization that runs 80,000 calls annually.
