**University College London Hospitals : UCL Hospitals Injectable Medicines Administration Guide: Pharmacy Department** before purchasing it in order to gauge whether or not it would be worth my time, and all praised UCL Hospitals Injectable Medicines Administration Guide: Pharmacy Department:

The UCL Hospitals Injectable Medicines Administration Guide, second edition is a popular and accessible guide covering many important aspects of administering medicines by injection. It is an essential resource for nurses and other health care professionals which provides key information and advice needed for the safe and effective administration of many injectable medicines. The UCL Hospitals Injectable Medicines Administration Guide covers intravenous, intramuscular and subcutaneous methods of administration and includes general advice on dealing with extravasation, osmolarity, pH, flushes and syringe pump compatibility. The alphabetically arranged tabulated monographs ensure quick access to information on key injectable medicines, including preparative details, stability, compatibility and acute bedside monitoring. The UCL Hospitals Injectable Medicines Administration Guide draws on the experience and expertise of a number of specialist pharmacists and other health professionals at UCL Hospitals and contains some information not readily accessible elsewhere.
