From Brand: Duke University Press Books : Uncertain Times: Kenneth Arrow and the Changing Economics of Health Care before purchasing it in order to gauge whether or not it would be worth my time, and all praised Uncertain Times: Kenneth Arrow and the Changing Economics of Health Care:

This volume revisits the Nobel Prize-winning economist Kenneth Arrow's classic 1963 essay "Uncertainty and the Welfare Economics of Medical Care"; in light of the many changes in American health care since its publication. Arrow's groundbreaking piece, reprinted in full here, argued that while medicine was subject to the same models of competition and profit maximization as other industries, concepts of trust and morals also played key roles in understanding medicine as an economic institution and in balancing the asymmetrical relationship between medical providers and their patients. His conclusions about the medical profession's failures to "insure against uncertainties" helped initiate the reevaluation of insurance as a public and private good. Coming from diverse backgrounds—economics, law, political science, and the health care industry itself—the contributors use Arrow's article to address a range of present-day health-policy questions. They examine everything from health insurance and technological innovation to the roles of charity, nonprofit institutions, and self-regulation in addressing medical needs. The collection concludes with a new essay by Arrow, in which he reflects on the health care markets of the new millennium. At a time when medical costs continue to rise, the ranks of the uninsured grow, and uncertainty reigns even among those with health insurance, this volume looks back at a seminal work of scholarship to provide critical guidance for the years ahead.

Contributors: Linda H. Aiken, Kenneth J. Arrow, Gloria J. Bazzoli, M. Gregg Bloche, Lawrence Casalino, Michael Chernew, Richard A. Cooper, Victor R. Fuchs, Annetine C. Gelijns, Sherry A. Glied, Deborah Haas-Wilson, Mark A. Hall, Peter J. Hammer, Clark C. Havighurst, Peter D. Jacobson, Richard Kronick, Michael L. Millenson, Jack Needleman, Richard R. Nelson, Mark V. Pauly, Mark A. Peterson, Uwe E. Reinhardt, James C. Robinson, William M. Sage, J. B. Silvers, Frank A. Sloan, Joshua Graff Zivin

"This book is worthwhile because it is multifaceted. . . . A graduate student at the end of his or her first semester, a legislative aide with a decade of experience advising Congress, or an emeritus professor who still loves the subject, all will find themselves challenged to comprehend how we have come so far, and yet remained so distant, from understanding the economics of health care." --Thomas E. Getzen, "Inquiry"

About the Author: Peter J. Hammer is Assistant Professor at the University of Michigan Law School. Deborah Haas-Wilson is Professor of Economics at Smith College. Mark A. Peterson is Professor of Policy Studies and Political Science at the University of California, Los Angeles, School of Public Policy and Social Research. William M. Sage is Professor at the Columbia University School of Law.
