Mary Elizabeth Milliken : Understanding Human Behavior: A Guide For Health Care Providers before purchasing it in order to gage whether or not it would be worth my time, and all praised Understanding Human Behavior: A Guide For Health Care Providers:

Understanding Human Behavior: A Guide for Health Care Providers, 6E is a unique book designed to present basic psychological concepts in a format appropriate for all allied health learners. The book provides numerous examples and activities that encourage learners to study their own behavior in light of new teachings with a vocabulary level that is appropriate for students enrolled in health-related programs. It can be used as the primary resource in a course on human relations/personal growth and as a supplementary book for topics presented within other courses such as the basic health occupations course, vocational adjustments, communication skills and ethics/professional development.

About the Author Mary Elizabeth Milliken, B.S.N., M.S., Ed.D., is a graduate of Duke University School of Nursing. Her graduate study at North Carolina State University at Raleigh concentrated on both education and psychology. She has practiced nursing in a variety of settings, served as instructor, then coordinator, of a practical nursing education program, was curriculum specialist for health occupations in the North Carolina Department of Community Colleges, and has been a consultant on curriculum and effective teaching. From 1971 to 1987, she served as Coordinator of Health Occupations Teacher Education at The University of Georgia in Athens. Dr. Milliken has followed the emerging holistic health movement since 1974, attending numerous workshops and conferences in which holistic concepts and complementary healing modalities were presented. She completed the curriculum sequence and certification requirements of Healing Touch International, Inc.
