From Brand: AltaMira Press : Unhealthy Health Policy: A Critical Anthropological Examination before purchasing it in order to gauge whether or not it would be worth my time, and all praised Unhealthy Health Policy: A Critical Anthropological Examination:

1 of 1 people found the following review helpful. Great book for anyone interested in Health Policy By Woman7A great book for anyone wanting to understand health policy from a critical medical anthropological approach. The book contains various articles from researchers experiences and is a necessary read for anyone wanting to understand a critical approach to health policy.

This new collection turns a critical anthropological eye on the nature of health policy internationally. The authors reveal the prevailing social inequalities that often represent significant threats to the health and well being of the poor, ethnic minorities, and women. The authors define an _anthropology of policy_ concerned with decisionmaking and the impact of health policy on human lives. It will be a critical resource for researchers and practitioners in medical anthropology, medical sociology, public policy, and public health care.

This collection is an important addition to several relatively recent and highly critical assessments of contemporary development efforts. . . . Recommended. Graduate students/faculty/professionals. (CHOICE)About the AuthorArachu Castro is Assistant Professor of Social Medicine in the Department of Social Medicine at Harvard Medical School in Boston and Director of the Institute for Health and Social Justice at Partners in Health. She has taught at the University of Barcelona and the National School of Public Health in Spain, at the National University at Cordoba, Argentina, and at the Institute of Tropical Medicine in Havana, Cuba.Merrill Singer is Associate Director and Chief of Research at the Hispanic Health Council in Hartford, Connecticut, as well as Assistant Clinical Professor at the University of Connecticut Medical School and a member of the Executive Committee of the Center for Interdisciplinary Research on AIDS at the Yale University School of Public Health.
