UNIFORM BILLING: A GUIDE TO CLAIMS PROCESSING, 2e is the essential resource for learning in-patient and out-patient processing techniques. Whether used in an acute, subacute, long term care, specialty, or clinic facility, this learning tool shows readers how to use UB-04 in any scenario. Its exercise-based format emphasizes practical application to help readers efficiently absorb the material. Plus, the included access code for the SimClaim software allows users to practice completing claim forms electronically.

"I feel that this text is very thorough; it is precise, easy to understand, and well organized. It offers excellent

theory and practical information and the tables and examples reinforce the material that is provided. The Challenge Exercises are logical and require the student to focus on the key information and chapter objectives."Amy Kalieta, CPC, Medical Coding Specialist/Adjunct Professor for Allied Health, The College of Winchester, White Plains, NY"I think that it is comprehensive, current, easy to read and followhellip;"Todd Farney, B.S., D.C., Medical Program Director, Wichita Technical Institute, Wichita, KSAbout the AuthorChristina Rizzo is the Director of Reimbursement at Natchaug Hospital, CT.
