**Christina England, Lucija Tomljenovic PhD : Vaccination Policy and the U.K. Government: The Untold Truth**  
before purchasing it in order to gage whether or not it would be worth my time, and all praised Vaccination Policy and the U.K. Government: The Untold Truth:

0 of 0 people found the following review helpful. An expose of a legal idea that everybody thought was ...By R. DiazAn expose of a legal idea that everybody thought was settled law but nobody took the time to investigate until Ms. England.0 of 1 people found the following review helpful. Great information which has eluded the publicBy Doc

Great information which has eluded the public. Shocking information for anyone new to this topic. Sadly, business as usual for those of us who follow tales of regulatory capture by big pharma. 3 of 3 people found the following review helpful. Buy this book! By Binny Yorkminster Brilliant book, well worth buying. Christina England is a very good journalist and worth looking up when it comes to SBS and vaccines.

What do Munchausen Syndrome by Proxy, Gulf War Syndrome and shady vaccination policies have to do with the UK government? By using a wide selection of studies, papers and documents released under the Freedom of Information Act, we uncover how, by prioritizing vaccination policy over vaccine safety, the Joint Committee of Vaccination and Immunization (JCVI), the Department of Health (DH), the Committee on Safety of Medicines (CSM) and the Ministry of Defence may have damaged the health of millions of people worldwide.

About the Author Research Journalist Christina England Christina England holds a Higher National Diploma in Journalism and Media Studies and currently writes for VacTruth, Health Impact News, GreenMedInfo, The Liberty Beacon and MissEcoGlam on immunisation safety and efficacy. England's main areas of expertise are researching false accusations of child abuse and adverse reactions to vaccines. Her work is read internationally and has been translated into many languages. Ms. England has been a guest on many radio shows and has spoken at seminars worldwide. She has co-authored the book Shaken Baby Syndrome or Vaccine Induced Encephalitis – Are Parents Being Falsely Accused? with Dr. Harold Buttram. Lucija Tomljenovic Ph.D Lucija Tomljenovic holds a Ph.D in biochemistry and is currently a senior research fellow at the University of British Columbia School of Medicine in Vancouver, Canada. Her research group works on investigating the mechanisms by which vaccines and vaccine ingredients may trigger autoimmune and neurological adverse reactions.
