Claudia Rumwell, Michalene McPharlin : Vascular Technology: An Illustrated Review before purchasing it in order to gage whether or not it would be worth my time, and all praised Vascular Technology: An Illustrated Review:

16 of 16 people found the following review helpful. Passed on my first try with using JUST this book :) :)By DI HIGHLY recommend this book if you are studying for the RVT registry. If you know it, you will pass!!!5 of 5 people found the following review helpful. The best foundation book on Vascular Ultrasound.By Pixie PoetThe best foundation book on Vascular Ultrasound. I own the old version which I thought was great. This one has more color pictures and made a great book even greater, which I didn't think was possible. Very well organized and clearly explained. Index was very helpful. It comes with a test you can take in the back which gives you 15 CMEs, which is why I purchased it in the first place.0 of 0 people found the following review helpful. Very nice layout and picturesBy CustomerI really like this book I think the pictures are great I love the way the information is laid out. I got this to study for my vascular boards which I have not taken yet so I don't know if it is a good study till but I am learning a lot

from it.

For registry candidates, technologists in training, cross-training sonographers, clinical personnel, and RPVI candidates, here is the completely revised, updated 5th edition of the best and most trusted vascular technology review text available now, for the first time, in full color. Written and peer-reviewed by nationally renowned authors and vascular experts, it remains a silver-bullet review of everything a registry candidate needs to know to pass the ARDMS specialty exam in vascular technology. Also used in labs and diagnostic ultrasound programs across the country, it is perhaps the most widely read vascular reference in print. This new edition includes more than 500 color illustrations and images, photo-documented physiologic exam techniques, 120 self-assessment case studies, and an integral application for 15 SDMS-approved CME credits. RVT, RPVI, and RVS candidates and DMS students can combine this Step 1 review text with Davies Step 2 mock exam Vascular Technology Review and Step 3 ScoreCards for Vascular Technology for powerful 1-2-3 Step Ultrasound Education Test Preparation. Ready to score? With this proven review, you can.

About the Author Claudia Rumwell lectures on registry preparation, provides consulting services, and continues to write. She is a past member of the board of the Society for Vascular Ultrasound, is a recipient of the SVU Distinguished Service Award, and has been honored with the status of SVU Fellow. She previously served in the following roles for the Division of Vascular Surgery at Oregon Health Science University: Technical Director of the Vascular Lab, Clinic Nurse Coordinator, Research Nurse Coordinator, and Instructor in Surgery. Micky McPharlin lectures widely on registry preparation and vascular topics, as well as providing consulting services. She also serves on the editorial board of the Journal for Vascular Ultrasound. Like Claudia, she is a recipient of the Society for Vascular Ultrasound Distinguished Service Award and has been honored with the status of SVU Fellow. She is the former Technical Director of the Vascular Laboratory of Henry Ford Hospital in Detroit, Michigan, and the former Program Director of the Vascular Ultrasound Program at Baker College of Auburn Hills, Michigan.
