Cathy Binger, Jennifer Kent-Walsh : What Every Speech-Language Pathologist/Audiologist Should Know about Alternative and Augmentative Communication (Allyn Bacon Communication Sciences and Disorders) before purchasing it in order to gage whether or not it would be worth my time, and all praised What Every Speech-

Language Pathologist/Audiologist Should Know about Alternative and Augmentative Communication (Allyn Bacon Communication Sciences and Disorders):

0 of 0 people found the following review helpful. practical resourceBy Melinda in PennsylvaniaQuick read--Very practical0 of 0 people found the following review helpful. Nothing new hereBy Stacy MarieNo information you can't find on google0 of 0 people found the following review helpful. AACBy MelodyWonderful little book that states everything in a nutshell. Gives you the opportunity to research any area that you would like more information on. Great teaching tool.

What Every Speech-Language Pathologist and Audiologist Should Know about Alternative and Augmentative Communication is designed as a basic introduction to the study of Alternative and Augmentative Communication. This brief, five chapter text provides readers with a basic overview of what Alternative and Augmentative Communication is and who might benefit from its use. Characteristics of this population are discussed, and case examples are provided. In addition, descriptions of the settings in which Speech Language Pathologists are likely to work with people who use Alternative and Augmentative Communication and team members who might be involved are included. The book concludes with an overview of basic principles of assessment and key considerations for providing Alternative and Augmentative interventions.
