Mrs. Margaret Ivory : What is Medicare? before purchasing it in order to gage whether or not it would be worth my time, and all praised What is Medicare?:

0 of 0 people found the following review helpful. Swampy -- Info that could be more clearBy TKThe author is judgmental which I don't need, just want the information. She buries definitions and doesn't define terms or uses terms and acronyms before she explains them. Too much history etc. in beginning. Not written for beginners.

From the Author
The subject of Medicare can be quite confusing as well as boring to the average American. When I meet with my Medicare clients and prospects, I love to break down these concepts in simple, easy to understand words so that my clients can understand what they have and why they have that particular plan. Deep down I am a wanna-be comedian so when I present this complex information, I pepper it with humor but I make certain that all concepts are fully explained and understood. Due to this presentational style, I don't have to advertise very much, as my clients refer their friends, family members and co-workers to my practice quite often. I have many senior friends across America and have been asked how can they receive this information. That is why this eBook "What is Medicare?" was created. Please kick your shoes off and enjoy learning how to make Medicare work best for you!

About the Author
The author of "What Is Medicare?" is Margaret Ivory. Margaret has been teaching and marketing insurance products since 1983. For the past 10 years, she has been mainly concentrating on Medicare products including Medicare Supplement Plans, Medicare Advantage Plans and Prescription Drug Plans. "What Is Medicare?" is based on her exact presentation that she shares with her clients and prospects. Peppered with her comedic wit, this guide is an easy to understand book packed with information on how you can best benefit from Medicare. You are now privy to strategies that she normally only shares with her clientele so they can lower and save on their drug costs. Now you are in her inner circle and you can do the same. Educationally, Margaret graduated from Southwestern Christian College and the Institute of Business and Finance. She has had a Life and Health Insurance license since 1983 and prides herself on explaining hard to understand principles in an easy and concise manner. "What is Medicare?" is one of the Medicare guides that you will refer to regularly to ensure that you are utilizing your Medicare effectively.
