It can be used as a baseline for

training protocol, policies and procedures. It is especially good for the new orientee, beginner or trainers.

Increasingly, emergency responders are seriously injured or even killed in violent confrontations. Knowing how to avoid violence when possible and how to protect yourself when it erupts is crucial. This program will help providers learn how to approach and enter a residence safely, how to deal with a domestic quarrel, how to handle medical emergencies in places of public assembly, how to assess a potentially violent situation, and much more.
