6 of 6 people found the following review helpful. A Structured Instruction book:By a fmapThis book consists of a structured reading and spelling programme for older children and adults. Aimed at non-specialist teachers (ie not necessarily SpLD-trained), it provides specific scripts for the teacher to follow for remedial lessons in classroom, small group or individual situations. However the teacher is encouraged to use terminology with which he or she is familiar and thus the script does not detract from the usefulness of this book for older students by the Specialist.The emphasis is on "decoding and spelling instruction based on word origin and word structure."The chapters cover the following areas:' Letter/ sound correspondences;' Syllable patterns;' Layers of Language: Anglo-Saxon; Latin; Greek;' Morpheme patterns (prefixes; suffixes; root words);' Strategies for decoding and spelling long unfamiliar words.There are also:' pre-tests and post-tests;' assorted word lists including some subject-specific lists;' lists of spelling Rules in the English Language.Finally the enclosed CD-ROM contains printable versions of all the tests, worksheets, quizzes and

other activities. Highly recommended for the new remedial teacher or anyone working with older students and wanting to incorporate more structure to their tuition. 0 of 0 people found the following review helpful. Five Stars By Customer item was purchased for one of our schools. 0 of 1 people found the following review helpful. Good, but By Customer I like the structure, and the answer guide. Some of the terminology seems to me to be outdated and sometimes a little confusing. It is slow going so we haven't done too much of the book. Overall I think it will be useful to us. I wasn't able to find a tutor familiar with the book, so I am teaching it to my own son. Due to the specialized vocab I need to prelearn it, and if he gets ahead with the exercises, sometimes we find that there is some detail in the terminology, etc that he had to have known first.
