I just went through the class using the same book's but when looking up for a review book for the exam, several site's recommended the same book for a study guide. So got another one, without being filled in, to touch up one things that I need to before I go take the exam. It's a great book.1 of 1 people found the following review helpful. Loved itBy Hilda RosadoI have been using this book and it is great I have gotten so much

better w my testing do to the studies in this book. Thank you.0 of 0 people found the following review helpful.
SatisfiedBy CDukesI am satisfied with the book. Planning for the exam test. The book was helpful. I will be passing it on when I am done to a friend.
