Richard Beebe, Jules Scadden, Deborah Funk : Workbook for Beebe/Scadden/Funk's Fundamentals of Basic Emergency Care, 3rd before purchasing it in order to gauge whether or not it would be worth my time, and all praised Workbook for Beebe/Scadden/Funk's Fundamentals of Basic Emergency Care, 3rd:

0 of 0 people found the following review helpful. It is in perfect shape. It is very informative and contains a ...By Mary Bryant This book came to me in new condition. I purchased it as a used book; however, I fail to see that it was ever opened. It is in perfect shape. It is very informative and contains a broad spectrum of subjects pertaining to what an EMT does in their line of work. I used to be an EMT and we used the Brady book when I went to school which I prefer, but for my son's class he was taking, this book was very helpful. 0 of 0 people found the following review helpful. very crappy book the workbook is no longer available the collage ...By matthew maple very crappy book the workbook is no longer available the collage i go to had to find a diff book mid school year and because of that the entire class will be lucky if they pass nationals 0 of 0 people found the following review helpful. Highly recommended By Customer This is meant to be a textbook to accompany lectures. It's also an amazing reference book and I refer back to it all the time. Being human, I forget things sometimes.

Bridge the gap from classroom concepts to real-life care by using the Workbook to Accompany Fundamentals of Basic Emergency Care, Second Edition. Exercises that appeal to a wide variety of learning styles are presented to help

enhance learners' critical-thinking skills. The Workbook includes a checklist for completion of crucial skill sheets from the book, a variety of question types, key terms, review of critical content and more.

This latest edition of *Fundamentals of Basic Emergency Care* is a landmark achievement for the ever dynamic profession of Emergency Medical Sciences. EMS providers have advanced the knowledge and psychomotor skills in rendering care to the sick and injured within the past three decades. This text exemplifies the most current medical techniques and theory practiced in the field today. Each chapter brings to life the exciting career of street medicine. Students will comprehend the science which supports the foundation of lifesaving. Practitioners will have a reference text in which to research newly establish national objectives. *Fundamentals of Basic Emergency Care* bridges the gap in bringing forth national level standards for a profession that must be practiced with great flexibility. This text is complimented with richly illustrated art and photographic images that demonstrate step by step instructions how to perform procedures on patients. As a student, you will gain the confidence required to handle all types of medical emergencies and manage injuries from basic to the most severe in nature. As the EMS profession progresses Thomson Delmar Learning will be there to prepare you for those new and exciting challenges. - Bruce Gadol (Southeastern School of Allied Health Medicine, Miami, FL)

About the Author
Richard Beebe, MS, BSN, NREMT-P is the program director for Bassett Health Care's Center for Rural Emergency Medical Services Education in Cooperstown, New York. He is also a Clinical Assistant Professor at the State University of New York at Cobleskill, New York. Richard Beebe is also a practicing field Paramedic with the Guilderland Police Department, since 1988. Richard Beebe has a Masters degree in education, is a registered Nurse and a nationally registered Paramedic. Richard Beebe has been an EMS educator for over two decades and is a chapter member of the National Association of EMS Educators. Mr. Beebe is a state and national speaker, author or editor of several textbooks, and has been recently working in a leadership role on the committee for the National EMS Education Standards of the National Association of EMS Educators.

Julie (Jules) K. Scadden has been involved in Emergency Medical Services for 19 years. Currently a Paramedic and CQI/Data Coordinator with Sac County Ambulance Service in Northwest Iowa, she is also adjunct faculty for Western Iowa Tech Community College in Sioux City, as well as at Iowa Central Community College in For Dodge, IA. Ms. Scadden also instructs and presents at local and national conferences, and serves on several advisory boards and committees. Ms. Scadden co-authored *Fundamentals of Basic Emergency Care, 3rd Edition* (Delmar, Cengage Learning, 2009).
