**Daniel J. Limmer EMT-P, Michael F. O'Keefe, Harvey T. Grant, Bob Murray, J. David Bergeron, Edward T. Dickinson : Workbook for Emergency Care** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Workbook for Emergency Care:

4 of 4 people found the following review helpful. Always out of date by a bit. By booknutWow, like War and Peace for EMS. Apparently the standard text for a LOT of EMT programs. Used their EMR version last semester. Unlike other vendors you cannot view the book electronically on line, they are afraid you won't buy the paper version I guess. Tried to buy the audio version, but the links don't work. The online quizzes resemble the ones you get in class, but only about 50% of the content is worthwhile. There are mistakes in diagrams they use for some of the quizzes. I tried several times to inform them of this, but they want me to ; describe in more detail, make copies of the page, outline what the correct information should be, and send it all to them. HEY! I don't get PAID to do that! It would take at least an hour

of my time to do so, without any compensation. Am too busy studying! They have the PowerPoints online that they sell the schools, but the links are not active in the online version. NO explanations of the slides. There should be further material in each slide for details. There ARE some good online links they supply if you want to take the time to explore them. The book doesn't contain some of the American Heart Association material from as late as 2010. For example, I couldn't find the Ventilation rate before and after advanced airway intubation, nor if there was a difference in ventilation rate using a Bag Valve Mask with an airway adjunct. Overall the book is okay. They make a lot of money selling it and the online access, and you HAVE to have the book. 0 of 0 people found the following review helpful. Emergency Care 12th plus Workbook is a great book combination. Bargain prices compared to the college book store prices in CA. By Rick Wells This is the most complete, concise, well thought out book combination of textbook/workbook I've ever seen. I bought copies for my kids to read ahead of their upcoming EMT basic class. Just for kicks I read them too. WOW! sure wish we had books like these back in the mid 60's when I worked as an ambulance attendant. Several of my patients would have benefitted from me having it too. Soory guys ...we did the best we could back then with basic and advanced 'first aid' training. So much better today!!! What a great way to prepare for EMT school, especially in our case because this is their class textbook. price saved me about \$40.00 for the two sets compared to their school bookstore price. That savings allowed us to buy some test flascards, etc. I highly recommend this book duo to anyone preparing for EMT school, Yes, even if it won't be your textbook. It has a wealth of good, current and understandable test prep informastion. Good luck to you all. 0 of 0 people found the following review helpful. EMT-B exam. By Annabelle Lineberry This book is very helpful in studying the book that it goes with. If you honestly complete this workbook then there is no reason why you should get less than a 90 on any EMT-B exam.

About the Author In 2004, Mike founded O'Keefe Motor Sports, Inc. (OMS Superstore), eventually growing it into the largest database of aftermarket automotive components available for online purchase in the world. Currently, aside from his position at Expert Business Advice, LLC, Mike is President of Pinpoint Holdings Group, Inc. and Vice President of Marketing for Bracemasters International, LLC. At Pinpoint, Mike's focus is building a strong base for understanding the global marketplace. He also plays a key role in facilitating the logistics of the commercial lighting branch of the company, bridging between Pinpoint's office in Wuxi, China, and their commercial clients-hotel chains such as Gaylord Palms, Ritz Carlton, Marriott, Mohegan Sun and Isle of Capri. Recently, Mike's passion and talents for cutting-edge business techniques and practices have led to the exponential growth of Bracemasters. By developing web-based marketing strategies and E-commerce initiatives, as well as formatting online documents that enabled the company to reach a vast number of current and potential patient-customers, Mike increased Bracemasters' website viewership by 17,000% in two years. Originally from Delavan, Wisconsin, Mike now lives in Orlando, Florida. He is a regular contributor to [www.expertbusiness.com](http://www.expertbusiness.com). His motto: "Rome did not create a great empire by having meetings; they did it by killing all those who opposed them." Clinical psychologist Bob Murray, Ph.D., and therapist Alicia Fortinberry teach their groundbreaking method at leading universities and multinational corporations. They are coauthors of "Creating Optimism". [www.RaisinganOptimisticChild.com](http://www.RaisinganOptimisticChild.com) "Edward T. Dickinson," MD, NREMT P, FACEP, is currently Assistant Professor and Director of EMS Field Operations in the Department of Emergency Medicine of the University of Pennsylvania School of Medicine in Philadelphia. He is currently Medical Director of the Malvern Fire Company, the Berwyn Fire Company, and the Township of Haverford paramedics in Pennsylvania. He is a residency-trained, board-certified emergency medicine physician who is a Fellow of the American College of Emergency Physicians. He began his career in emergency services in 1979 as a firefighter-EMT in upstate New York. As a volunteer firefighter, he served as a company officer, assistant chief, and training officer. In 1985, he was the first volunteer firefighter in the United States to receive the top award for heroism from the "Firehouse Magazine" Heroism and Community Awards program in recognition of his rescue of two elderly women trapped in a house fire. Dr. Dickinson has remained active in fire service and EMS for the past 25 years. He frequently rides with EMS units and has maintained his certification as a National Registry EMT-Paramedic. He has served as medical editor for numerous Brady EMT -B and First Responder texts and is the author of "Fire Service Emergency Care," and co-author of Emergency Care-Fire Services Edition, EMT-B textbooks. "Michael A. Wieder, MS, CFPS, MIFireE," is the Assistant Director at Fire Protection Publications, headquarters for the International Fire Service Training Association (IFSTA), at Oklahoma State University in Stillwater, Oklahoma. He has written or edited over two dozen books and 100 periodical articles. Mr. Wieder holds an Associate Degree in Fire Technology from Northampton Community College in Bethlehem, Pennsylvania. He also holds a Bachelor's Degree in Fire Protection and Safety Engineering Technology and a Master's Degree in Occupational and Adult Education from Oklahoma State University. A Certified Fire Protection Specialist and a member of the Institution of Fire Engineers, he is a member of the National Fire Protection Association's Fire Fighter Professional Qualifications (NFPA 1001) and Fire Service Training committees, serves as

secretary of the National Fire Service Incident Management System Consortium, and is IFSTA's representative to the National Volunteer Fire Council (NVFC). He is a contributing editor to "Firehouse"(R) "Magazine" and "The Pennsylvania Fireman." He maintains a very active fire service lecture and legal consultation workload. Mr. Wieder began his fire service career in 1979 as a volunteer firefighter with the Pennsburg, Pennsylvania, Fire Company. He also served as a volunteer and part-paid firefighter with the Stillwater, Oklahoma, Fire Department.
