**Margaret Schell Frazier RN CMA BS, Jeanette Drzymkowski RN BS : Workbook for Essentials of Human Diseases and Conditions, 4e** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Workbook for Essentials of Human Diseases and Conditions, 4e:

0 of 0 people found the following review helpful. Great book for a low price! By Customer I paid \$10 for this book and it is in nearly new condition! I have gotten used books from other sellers that claimed to be in good condition and were not so this purchase was a pleasant surprise. I will certainly look for this seller the next time I need an out of print book. 1 of 1 people found the following review helpful. BadBadBad!!!! By markley Missing chapters 8 and 9. The workbook looked brand new when it arrived so I didn't check to make sure every page was there. I purchased it as "new" so why should I check for missing pages? I didn't even notice until I tried to do my homework!!!! Now I have to buy another workbook immediately! 0 of 0 people found the following review helpful. Liz By STL/Arch I am very happy with this book. I needed it for work and it has helped me a lot. I enjoy reading about the different diseases also. Purchase was easy and delivery was great.

Word definition and glossary term exercises, short answer and fill-in-the-blank questions, anatomic structure identification exercises, patient screening and patient teaching critical thinking questions, essay questions, and certification exam review questions provide a solid learning tool.
