Dana C. McWay : Workbook for McWay's Today's Health Information Management: An Integrated Approach before purchasing it in order to gauge whether or not it would be worth my time, and all praised Workbook for McWay's Today's Health Information Management: An Integrated Approach:

0 of 0 people found the following review helpful. Would give ZERO stars if I could!!! By Dawn Today's Health Information Management: An Integrated Approach I recently finish a 9-month course for outpatient medical billing and coding and I took the certification exam and passed so now I'm a Certified Professional Coder - Apprentice (CPC-A). When I was almost out of school we found out there wasn't many opportunities for outpatient here, just inpatient. Since I had a 3.8GPA, I decided to go for the inpatient exam and study for that while I was looking for a job. Well, one of

my teachers highly suggested this book and workbook that would be an excellent source to study for the CCA certification exam. I was all excited because the other book they recommended was our Understanding Health Insurance book. The books came, I was excited. So after dinner I started to read the first chapter, it was interesting until I got to the end of the chapter and the chapter questions. I answered them and wasn't sure on a few so I looked in the back to find the answer key to see if I was right or not. Well, there is NO answer key. Not even an odd number answer key. I emailed the publisher of the book and the wrote back kinda rudely that I could not get a key, i would have to get the instructors book but i couldn't get that unless I was a certified teacher. He also said that I should go to a school to get help on it. Well come to find out none of the colleges here use that book (because they say it's outdated). So now I'm stuck with this book and the workbook to go with it. So please, if you try to better yourself and try to do things on your own, please make sure there is an answer key of some kind to let you know you are doing the write things. Will definately be more careful next time I order a text book from anywhere.0 of 1 people found the following review helpful. Vey poor serviceBy D. PANTThe book I bought listed as new but the DVD from the book was missing. I wrote FOUR emails to the sellers regarding this but didn't get a single response from them. This seller can't be trusted.0 of 0 people found the following review helpful. I was not real happy with the purchaseBy CustomerI was not real happy with the purchase. From the description that was listed it sounded like there was very little writing inside when instead over the half the book was done.

Specifically designed to reinforce and apply concepts and develop critical thinking, this workbook provides various exercises and case studies that strengthen the knowledge and skills of learners preparing to enter the health information management profession.

About the AuthorDana C. McWay is a lawyer and veteran health information management professional. A member the American Health Information Management Association (AHIMA) Board of Directors, she served on several AHIMA committees, most recently the Professional Ethics Committee. She was also a member of the Missouri Health Information Management Association's Legislative Committee, and a voting member of the Institutional Board at Washington University Medical School. Previously a Director of Medical Records for a large teaching hospital and for-profit substance abuse facility, Ms. McWay led the charge to convert an outmoded, paper-based record management system to a modern electronic system. In addition to LEGAL AND ETHICAL ASPECTS OF HEALTH INFORMATION MANAGEMENT for which she received a Triumph Award from AHIMA, she has led several audio conferences, served as co-editor of online continuing education offerings, and written a second HIM text, TODAY'S HEALTH INFORMATION MANAGEMENT: AN INTEGRATED APPROACH. Licensed to practice law in Illinois and Missouri, Ms. McWay is currently the Clerk of Court for the US Bankruptcy Court for the Eastern District of Missouri and one of three recipients of the Director's Award for Outstanding Leadership within the Federal Judiciary.
