Pilbeam MS RRT FAARC, Sindee Karpel MPA RRT, Neil Rodia MS RRT : Workbook for Mechanical Ventilation: Physiological and Clinical Applications, 4e before purchasing it in order to gage whether or not it would be worth my time, and all praised Workbook for Mechanical Ventilation: Physiological and Clinical Applications, 4e:

0 of 0 people found the following review helpful. Five StarsBy RepairodoxExactly as described!used book came In almost perfect condition!4 of 6 people found the following review helpful. ThrilledBy Barbara J. SticeI am very happy with my purchase. The book arrived in condition advertised and in a timely manner. Thank you for the prompt and efficient service. This workbook, while not a course requirement....has been especially beneficial to me in understanding and practicing respiratory care skills and calculations.2 of 3 people found the following review helpful.

Great workbookBy Alyssa -ILThis is a very helpful workbook, I highly recommend it to any student learning about mechanical ventilation

In addition to the learning objectives, review questions, and case studies, this companion Workbook for Mechanical Ventilation now includes a Key Terms Crossword Puzzle, critical thinking questions, NBRC-style questions, and helpful Internet sites for each chapter. The learning objectives from the text are restated to reinforce the basic concepts that students should learn from each chapter. Review questions based on chapter learning assist in student interaction with the textbook. Case studies help students further apply core text information to real-life patient scenarios. NBRC-style questions serve as excellent chapter review tools and help students prepare for the real NBRC exams. Critical thinking questions help students apply and analyze the content they have learned in the text chapter. Key Terms Crossword Puzzles present a new and engaging way for students to learning and link key terms with their definitions. Helpful Internet sites in each chapter further enhance the learning of chapter content.
