**Edward Kuvlesky, Craig N. Story : Workbook for Prehospital Emergency Care** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Workbook for Prehospital Emergency Care:

0 of 0 people found the following review helpful. Good in theory, ruined by instructors. By Kimmy This is a great book as it makes for easy daily grades. If you instructor makes you rip out the answer key in the back and hand them in, then it's the absolute, crappiest, workbook you've ever seen. It's a paperback so you can forget about it looking "nice" after a month's worth of using it. Once it goes in the backpack, it's a gonner. If you are lucky, your instructor will pull test questions from this book and make for easy tests. If your instructors were like mine, don't get used to the thought "Oh, this is exactly what my test will be like". We used this book a handful of times (at both institutions I've taken EMT over the past 10 years) so I was pretty upset that they insisted this was a crucial item needed to pass EMT. 0 of 0 people found the following review helpful. Five Stars By Isaiah Gurule Great workbook, worked well for my class 0 of 0 people found the following review helpful. I was quite disappointed. By Brooke Taylor I chose this one because it

said it had no writing but it actually came with quite a bit of writing, I was quite disappointed.

Book by Kuvlesky, Edward, Story, Craig N.

About the AuthorHafen is Professor in the Department of Health Sciences, Brigham Young University, Provo, Utah."Joseph J. Mistovich, M.Ed, NREMT-P." Joseph Mistovich is the Chairperson of the Department of Health Professions and a Professor at Youngstown State University in Youngstown, Ohio. He has 18 years of experience as an educator in emergency medical services and multidisciplinary allied health courses, including advanced cardiac life support. Mr. Mistovich received his Master of Education degree in Community Health Education from Kent State University in 1988. He completed a Bachelor of Science in Applied Science degree with a major in Allied Health in 1985 and an Associate in Applied Science degree in Emergency Medical Technology in 1982 from Youngstown State University. He is also certified as a Nationally Registered Emergency Medical Technician-Paramedic. Mr. Mistovich has over 22 years of experience providing advanced life support in the prehospital environment. He is an author or co-author of several EMS textbooks. He is a frequent presenter at local, state, and national conferences. "Randall W. Benner, M.Ed, NREMT-P." Randall Benner, Instructor in the Department of Health Professions at Youngstown State University, has over 16 years of experience as an educator in emergency medical services and as a field paramedic. He serves as the Director of the Emergency Medical Technology Program at Youngstown State University and is responsible for all levels of emergency medical education. In addition, he actively functions as a paramedic on an advanced life support unit. Mr. Benner has served as a contributing author for a variety of EMS textbooks and instructor resource materials. He also serves as a medical content reviewer for emergency medical services and allied health publications. He is a contributing author to the revision of the United States..Department of Transportation National Standard EMT Intermediate and Paramedic curricula. He serves on several local, state, and national EMS committees. Mr. Benner is completing his Ph.D program in curriculum and instructional design at Kent State University. "Gregg S. Margolis, MS, NREMT-P." Gregg S. Margolis has been involved in emergency medicine and emergency medical education for over 20 years. He served as a faculty member and in leadership positions in the Departments of Emergency Medicine in two major academic institutions. In addition to his clinical, research, and educational experience, Mr. Margolis served as the Principal Investigator for the development of the Paramedic and EMT Intermediate National Standard Curricula. He is a renowned expert and frequent lecturer on a variety of topics in emergency medicine and the author of dozens of publications. Mr. Margolis consults nationally and internationally in emergency medical services development and education.
