**Michelle A. Green : Workbook to Accompany 3-2-1 Code It!** before purchasing it in order to gage whether or not it would be worth my time, and all praised Workbook to Accompany 3-2-1 Code It!:

2 of 2 people found the following review helpful. Don't spend the money on this one. By Dana Forester I may have another review already listed. And in case it was not posted, I can tell you that this book takes way too much time talking about ICD 10 in the middle of text relating to ICD 9. If the book were organized properly, there would be a separate section specifically for the ICD-10 updates only. Instead the writer would rather confuse you with extra verbage that is not required. Chapter 4 alone has over 100 pages, the writer must have been paid by the word. In addition, the textbook does not provide answers for the review questions. The workbook that accompanies the textbook has tons of questions and not one answer in the book. 1 of 1 people found the following review helpful. Great price By C. Proto This is the workwook that accompanies the 3-2-1 Code It! Textbook. There is not much to be said about the content because it is just a series of exercises. I loved it because the college book store was charging \$50 more for the same book. This brand new book arrived very quickly wnd was in perfect condition. 0 of 0 people found

the following review helpful. Two StarsBy Marjorie BroughamMany pages were missing.

The student workbook challenges learners with application-based assignments designed to put coding knowledge to the test.

About the AuthorMichelle A. Green is a SUNY Distinguished Teaching Professor in the Physical and Life Sciences Department of the College of Technology at Alfred State College. An active member of the American Academy of Professional Coders (AAPC) and American Health Information Management Association (AHIMA), Ms. Green has been recognized for both teaching and for her significant contributions to the Health Information Management profession. She has earned numerous awards, including the State University of New York Chancellor's Award for Excellence in Teaching, Alfred State College's Alumni Association Teacher of the Year, Who's Who Among America's Teachers, and the FORE Triumph Educator Award from the AHIMA. Ms. Green is a Registered Health Information Administrator (RHIA), a Fellow of the American Health Information Management Association (FAHIMA), and a Certified Procedural Coder (CPC). She earned a BS from Daemen College and an MPS degree from Alfred University. Ms. Green has authored ESSENTIALS OF HEALTH INFORMATION MANAGEMENT in addition to this book.
