Diane M. Klieger RN MBA CMA (AAMA) : Workbook to accompany Saunders Textbook of Medical Assisting before purchasing it in order to gauge whether or not it would be worth my time, and all praised Workbook to accompany Saunders Textbook of Medical Assisting:

0 of 0 people found the following review helpful. Get book By Vangie I needed for school because I lost the one that the school gave me. Its perfect for studying exams in school

This excellent student workbook takes information directly from the main text, offering a balance of terminology review, content review, content application, and critical thinking exercises. It provides all the tools necessary for completing application exercises, as well as competency checklists formatted to the national accreditation standards for competency testing. Each step is weighted for easy scoring, and documentation is included as a necessary step where appropriate. Comprehensive reviews of terminology and content, reinforced by a variety of recall exercises. Application exercises that encourage students to put concepts into practice, including exercises that interface

with the Medisoft software program on the CD-ROM. Critical thinking exercises that take information to the next level and prepare students for the real world through patient case scenarios. Skills competency checklists formatted to the national accreditation standards for competency testing. Each step is weighted for easy scoring, and charting is included as a necessary step where appropriate.
